PROFESSIONAL SUMMARY

Results-driven Frontend Developer with **3+ years of experience** building modern, responsive, and highly scalable web and mobile applications. Specialized in React.js, Next.js, and TypeScript, with a strong focus on component-driven architecture, API integration, and performance optimization. Proven track record of collaborating with cross-functional, distributed teams to deliver high-quality digital products.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), Angular, HTML5, CSS3, SCSS, Tailwind CSS.
- **Mobile & PWAs:** React Native (Expo), Ionic, Progressive Web Applications (PWA).
- **Architecture & UI/UX:** Clean Code, Reusable Components, Responsive Design, Design System Implementation, Figma.
- **Integration & Backend:** REST APIs, JSON, Authentication Flows (JWT/OAuth), NestJS.
- **Tools & Environment:** Git/GitHub, Docker, Jira, Postman, Linux, Agile/Scrum.

PROFESSIONAL EXPERIENCE

IT Consultant / Full Stack Developer

Londo Technology | Douala, Cameroon
October 2024 – Present

Develop and maintain enterprise web, mobile, and backend applications for banking and industrial clients.

- Develop and maintain enterprise applications including **BCINET** and **BCI Online**, delivering new features, resolving critical issues, and improving application performance.
- Design and implement business solutions for **Cimencam-SFA**, focusing on workflow automation and internal operations management.
- Contribute to the development and maintenance of customer-facing web and mobile applications such as **MyCIMENCAM** and **Click-Cadyst**.
- Build responsive and maintainable user interfaces using **Angular**, **TypeScript**, and **Ionic**, while integrating secure RESTful APIs.
- Collaborate with backend developers to deliver scalable full-stack solutions using **NestJS**, **Node.js**, **MongoDB**, and **Redis**.
- Deploy, monitor, and maintain applications using **Docker** and **Portainer**.
- Integrate AI-powered development workflows and contribute to automation initiatives using modern LLM-based tools.

Full Stack Web Developer

Inno-soft | Bertoua, Cameroon
April 2023 – November 2023

- Developed full-stack web applications using **React.js** for the frontend and **PHP** for the backend.
- Designed and managed relational databases while implementing both client-side and server-side functionalities.
- Delivered web development training sessions and mentored students through hands-on software development projects.
- Collaborated on UI/UX design and produced digital assets including logos and promotional materials.

SELECTED PROJECTS

My CIMENCAM | *SFA Platform & PWA*

- **Role:** Developed responsive business workflows, dynamic forms, and complex analytical dashboards.
- **Impact:** Significantly improved field operations and usability for the sales team.
- **Stack:** Angular, TypeScript, Ionic, SCSS, REST APIs.

JeTontine | *Fintech Product*

- **Role:** Designed financial tracking dashboards and developed smooth, secure user-onboarding flows.
- **Stack:** Next.js, React, TypeScript, NestJS.

Gego | *Transportation & Reservation Platform*

- **Role:** Implemented search-to-book workflows, route mapping, and mobile-friendly reservation layouts.
- **Stack:** React Native, TypeScript, NestJS, PostgreSQL.

BibleQuest | *Gamified Educational App*

- **Role:** Created interactive mobile UI components and implemented an offline-first data synchronization strategy.
- **Stack:** React Native, Expo, TypeScript, NestJS.

EDUCATION

- **Higher National Diploma (HND / DUT) in Computer Science**
  Specialization: Software Development and Information Systems

LANGUAGES & REMOTE WORK PROFILE

- **Languages:** French (Native) | English (Professional Working Proficiency)
- **Remote Setup:** Fully equipped home office, high-speed internet, and flexible hours to align with international time zones (EST, CET, etc.).
